How scoring works in Dutch

- When a player calls "Dutch", the round ends and every player adds up the value of the cards in their hand.
- If the player who called "Dutch" has strictly the lowest hand, they score 0. Otherwise they score their hand plus a 10-point penalty. The other players score their hand.
- The game ends when a player reaches 100 points. The lowest total wins.

Tour de table: let the app keep score for you

The app adds up every round, applies the rules of the game and names the winner.
